

Kripalu School of Ayurveda

Anatomy and Physiology Course Requirements

To receive an Ayurvedic Health Counselor Certification from the Kripalu School of Ayurveda (KSA), you must complete a minimum of 6 credits (2 college semesters) of college-level Anatomy & Physiology (A&P). It is preferable to complete this prior to entering the program, but you have 1 year after graduation to complete the A&P. KSA will hold your certificate until the A&P is complete.

You must achieve a minimum of 75% (C-) or higher in A&P.

KSA highly recommends that students complete the A&P requirement with a college level two semester in-person course with lab, especially for those students that believe they will continue into advanced training in Ayurveda in the future.

The following online courses have been approved by the Kripalu School of Ayurveda Admissions Committee to satisfy the A&P requirement for the Ayurvedic Health Counselor Certification.

Straighterline

BIO201: Anatomy & Physiology I	Credits: 3.00
BIO202: Anatomy & Physiology II	Credits: 3.00

www.straighterline.com

University of Phoenix Online

NSCI280: Anatomy & Physiology I	Credits: 4.00
NSCI281: Anatomy & Physiology II	Credits: 4.00

www.phoenix.edu

CalCampus

SH330: Anatomy & Physiology I	Credits: 4.00
SH331: Anatomy & Physiology II	Credits: 4.00

www.calcampus.edu

NOTE: If applicant wishes to complete the A&P requirement through an alternate online program or in-person at a local university, it must be approved by the KSA Admissions Committee. Please forward all course information, including syllabus, course credit information and course website to the KSA Academic Coordinator erinc@kripalu.org.

Students who have taken A&P more than 10 years ago are encouraged to take a refresher course. These courses do not need to be taken for additional college credit.
